MIXES

Mix & Match Custom Pasture Blends

Your farm. Your conditions. Your pasture mix

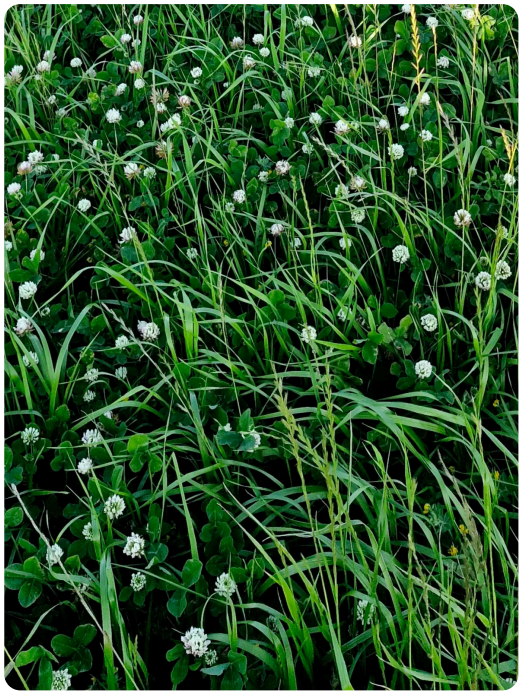

A custom pasture blend built around your farm, your conditions and what you want your pasture to achieve.

ABOUT THIS VARIETY

Our experienced team can help you select a combination of proven pasture grasses, legumes and forage species based on your soil, rainfall, climate, livestock and production goals.

Whether you're establishing a new paddock, renovating an existing pasture, producing hay or silage, or building a productive grazing system, we can tailor a blend to suit your requirements.

Tell us what you're trying to achieve and we'll help build a pasture mix designed for your farm.

QUICK FACTS

TOLERANCES
Low pH, Waterlogging, Salinity, Drought, Frost

END USE
Grazing, Hay, Silage, Cover crop, Green manure, Permanent pasture, Erosion control / stabilisation, Break crop

LIVESTOCK
Beef, Dairy, Sheep, Equine, Goat, Chicken, Alpaca, Weaners, Lamb finishing

CARBON CREDIT
Eligible

KEY ATTRIBUTES

- ✓ Built around your soil, rainfall and climate
- ✓ Proven pasture grasses, legumes and forage species
- ✓ Expert advice from our team
- ✓ Matched to your livestock and production goals
- ✓ For new paddocks, renovations, hay, silage or grazing

CARBON FARMING & PASTURE DIVERSITY

Carbon farming offers farmers the opportunity to improve soil health, build soil carbon and support more sustainable farming systems. Many of IH Seeds pasture mixes feature a diverse range of grasses, legumes and herbs that can support productive pastures, encourage deeper root growth, and contribute to soil carbon sequestration. Diverse pastures may help farmers meet the requirements of eligible carbon farming projects under Australia's Emissions Reduction Fund (ERF), with the potential to earn Australian Carbon Credit Units (ACCUs) where approved methods and eligibility criteria are met.
