

SERRADELLAS & MEDICS

Serramax Serradella

Hard seeded, highly regenerative

Ornithopus compressus

Serramax is a WA bred new variety that is an early flowering, hard seeded, yellow serradella with a semi erect growth habit and an increased rate of hard seed breakdown which favours strong regeneration. Suited to acidic sands and sandy loams, it establishes quickly, reducing early weed competition. Suitable as a permanent pasture improving soil fertility and boosting yields for subsequent crops.

ABOUT THIS VARIETY

Serramax is a WA bred yellow serradella with a semi erect growth habit. It is early flowering and hard seeded, with an increased rate of hard seed breakdown which favours strong regeneration from year to year.

Serramax is suited to acidic sands and sandy loams, where it establishes quickly, reducing early weed competition. It is suitable as a permanent pasture, improving soil fertility and boosting yields for subsequent crops. Serramax is sold as bare (de-hulled) seed.

QUICK FACTS

-  **TYPE & PERSISTENCY**
Annual
-  **MIN RAINFALL**
300 mm+
-  **SOWING RATE**
6–10 kg/ha De-hulled
-  **TOLERANCES**
Low pH
-  **END USE**
Grazing, Permanent pasture
-  **DAYS TO FLOWERING**
95
-  **HARD SEED LEVEL**
High
-  **FLOWER COLOUR**
Yellow

KEY ATTRIBUTES

- ✓ Early flowering, hard seeded yellow serradella
- ✓ Increased rate of hard seed breakdown favours strong regeneration
- ✓ Suited to acidic sands and sandy loams
- ✓ Establishes quickly, reducing early weed competition
- ✓ Suitable as a permanent pasture
- ✓ Improves soil fertility and boosts yields for following crops

PLANTING & GRAZING NOTES

Inoculate seed before sowing with group G inoculant.

STAND LIFE

Hard seeded, with an increased rate of hard seed breakdown which favours strong regeneration. Suitable as a permanent pasture.

HOW IT'S SOLD

FORM	PACK
Bare / de-hulled	25 kg
